Just a note to let you know that Critical Technologies is now officially ~~Williams Critical Technologies~~, no, make that ~~Williams Communications Group~~, no, ~~Williams Technologies Solutions~~, - er, wait, it's **Williams Professional Services**. Definitely. This time I'm sure. Really.

We still report into Frank Semple's organization.

Not many people can say that they worked for five companies in ten months from one desk. And that doesn't count the fact that my paycheck and insurance still say 'Vyvx'.

BTW, Williams Technologies Solutions business cards would be collectors' items, except that we never had enough time to order new business cards. We never even got the proofs back.
